

#226

Tactical Bar with V-slot

The bar is made of specially alloyed spring steel. The overall bar is tempered for extra strength.

Extreme strength in relation to their length and low weight. In tests performed by the National Swedish Institute for Material testing, the Tactical Bars were found to withstand extreme strain without yielding.

The chisel end and the nail claw end are both sharpened so the edges can easily be wedged in between door and doorframe. Very often used in pairs (with two Breachers) with an overlapping technique. Painted in black non-reflective color.

Available sizes of Tactical bar with V-slot:

#226-11	11" / 28 cm	0.9 Lbs / 0.4 kg
#226-20	20" / 51 cm	2.0 Lbs / 0.9 kg
#226-25	25" / 64 cm	3.1 Lbs / 1.4 kg
#226-28	28" / 71 cm	4.0 Lbs / 1.8 kg
#226-36	36" / 91 cm	5.5 Lbs / 2.5 kg

The length and weight may vary since the Tactical bar with V-slot is forged by hand.
